

JOHN AND MARY LOUISE RILEY SEMINAR SERIES - SPRING 2015

- April 1**
Wednesday
Host: S. Morgan
Eric Bjorkstedt, Department of Fisheries Biology, Humboldt State University
"Patterns and variability in zooplankton communities off northern California: a tale of climate, currents, and copepods"
- April 8**
Wednesday
Host: S. Morgan
Bill Sydeman, President and Senior Scientist, Farallon Institute for Advanced Ecosystem Research
"Of fish, seabirds, and trees: the present, past, and future of upwelling ecosystems"
- April 15**
Wednesday
Host: G. Cherr
Dimitri Deheyn, Scripps Institute of Oceanography, University of California, San Diego
"Light production and light manipulation in living organisms: from magical displays to bio-inspired applications"
- ***Exit Seminar*****
- April 17**
Friday
Host: S. Morgan
Sarah Gravem, Doctoral Candidate, Ecology Graduate Group, Bodega Marine Laboratory, University of California, Davis
"Scaling from individual prey behavior to intertidal zonation and community structure in rocky tidepools"
- April 22**
Wednesday
Host: G. Cherr
Dick Zimmer, Department of Ecology and Evolutionary Biology, University of California, Los Angeles
"Keystone species and molecules of keystone significance"
- April 29**
Wednesday
Host: G. Cherr
Kwasi Connor, University of California President's Postdoctoral Fellow, University of California, Irvine
"Life on the rocks: integrative biology of life in the intertidal zone"
- May 6**
Wednesday
Host: G. Cherr
Carolyn Friedman, School of Aquatic and Fishery Science, University of Washington
"Trans-generational effects of ocean acidification on marine molluscs"
- ***Exit Seminar*****
- May 7**
Thursday
Host: N. Fangué
Lisa Komoroske, Ph.D, Ecology Graduate Group, Bodega Marine Laboratory, University of California, Davis
"Linking effects of climate change stressors across biological levels in an endangered estuarine fish"
- May 13**
Wednesday
Host: G. Ng
Richard Emlet, Oregon Institute of Marine Biology, University of Oregon
TBD
- May 20**
Wednesday
Host: E. Fairbairn
Chelsea Rochman, David H. Smith Conservation Research Postdoctoral Fellow, School of Veterinary Medicine, University of California, Davis
"How about plastics and priority pollutants: a chemical cockTALE"
- May 27**
Wednesday
Host: O. Turnross
Skyli McAfee, Executive Director, Ocean Science Trust
"What boundaries are you crossing? Lessons from the nexus of science, communities and government in California"
- ***Exit Seminar*****
- June 3**
Wednesday
Host: B. Gaylord
Laura Jurgens, Doctoral Candidate, Ecology Graduate Group, Bodega Marine Laboratory, University of California, Davis
"Population and community impacts of extreme events in coastal marine ecosystems"

Seminars begin at 4:00 p.m. in the BML Lecture Hall.
Join us for coffee and cookies at 3:45 p.m. in the Great Hall.
Please telephone 707-875-2211 for further information.
