

JOHN AND MARY LOUISE RILEY SEMINAR SERIES - Fall 2017

- September 27**
Wednesday
Host: K. Hewett
- Francis Chan, Associate Professor of Integrative Biology, Oregon State University**
"Challenges and opportunities in ocean acidification and hypoxia science and policy"
- October 11**
Wednesday
Host: R. Wigginton
- Christine Whitcraft, Assistant Professor of Wetlands Plant Ecology, Biological Sciences, California State University Long Beach**
"Wetlands in a time of change"
- October 12**
Thursday
Host: J. Stachowicz
- Matthew Whalen, Ph.D. Candidate, Graduate Group in Ecology, University of California, Davis, Bodega Marine Laboratory**
"How does environmental heterogeneity influence the development and functioning of ecological communities?"
- October 18**
Wednesday
Host: S. Bashevkin
- Erin Beller, Environmental Scientist, Resilient Landscapes Program, San Francisco Estuary Institute**
"Upside-down streams and part-time estuaries: reconstructing the historical ecology of dynamic California coastal ecosystems"
- October 25**
Wednesday
Host: J. Sadowski & G. Ng
- Paul Bourdeau, Assistant Professor of Marine Ecology, Department of Biological Sciences, Humboldt State University**
"Fear and stress on the Lost Coast: an experimental journey through a rapidly-changing intertidal environment"
- November 1**
Wednesday
Host: K. Elsmore
- Melissa Monk, Research Mathematical Statistician, Southwest Fisheries Science Center, National Oceanographic and Atmospheric Administration**
"Integration of habitat information with fisheries dependent data"
- November 14**
Tuesday
Host: J. Largier & G. Cherr
- Clive Dorman, Research Oceanographer, Scripps Institution of Oceanography, Professor Emeritus of Geological Sciences, San Diego State University**
"U.S. West coast marine fog based on ship observations"
- November 29**
Wednesday
Host: B. Jellison & J. Miller
- Eric Palkovacs, Associate Professor of Ecology and Evolutionary Biology, University of California, Santa Cruz**
"Ecological consequences of biodiversity within species"

**Seminars begin at 4:00 p.m. in the BML Lecture Hall.
Join us for coffee and cookies at 3:45 p.m. in the Great Hall.
Please telephone 707-875-2211 for further information.
